Mindluster Platform

About the course Python Data Science Essentials

To do data science work, you'll definitely need to learn at least one of these two languages. It doesn't have to be Python, but it does have to be one of either Python or R. (Of course, you'll also have to learn some SQL no matter which of Python or R you pick to be your primary programming language) .

Programming Category's Courses

Course Lesson(4)

Lesson 1 : **Python Data Science Essentials The Course Overview | packtpub com**

Lesson 2 : **Python Data Science Essentials Data Loading and Preprocessing | packtpub com**

Lesson 3 : **Python Data Science Essentials Introducing EDA | packtpub com**

Lesson 4 : **Python Data Science Essentials Preparing Tools and Datasets | packtpub com**
