Mindluster Platform

About the course Language Applications with TensorFlow

Google built the underlying TensorFlow software with the C++ programming language. But in developing applications for this AI engine, coders can use either C++ or Python, the most popular language among deep learning researchers .

Programming Category's Courses

Course Lesson(5)

Lesson 1 :
Building Natural Language Applications with TensorFlow The Course Overview | packtpub com

Lesson 2 :
Building Natural Language Applications TensorFlow Installing TensorFlow Environment | packtpub com

Lesson 3 :
Building Natural Language Applications TensorFlow Create Placeholders Inputs Targets | packtpub com

Lesson 4 :
Building Natural Language Applications TensorFlow Setting Hyperparameters Session | packtpub com

Lesson 5 :
Building Natural Language Applications TensorFlow Load Weights Run Session | packtpub com
