About the course streptococcal pharyngitis symptoms

streptococcal pharyngitis symptoms course, in this course we will delve into the characteristic symptoms of streptococcal pharyngitis, commonly known as strep throat. Exploring manifestations such as sore throat, fever, difficulty swallowing, swollen lymph nodes, and redness or white patches on the tonsils, we aim to enhance understanding of this bacterial infection. Additionally, we will discuss complications and differential diagnoses to facilitate accurate diagnosis and appropriate management. Through comprehensive study, we seek to improve recognition and treatment of streptococcal pharyngitis for optimal patient outcomes.

Medical Category's Courses

Course Lesson(70)

Lesson 1 : **Gastric Acid Physiology Secretion Ulcers Acid Reflux and Treatment**

Lesson 2 : **Part I Inflammation**

Lesson 3 : **Part II Inflammation**

Lesson 4 : **Liver Physiology**

Lesson 5 : **Liver Anatomy and Blood Supply**

Lesson 6 : **Nephrology Glomerular Filtration**

Lesson 7 : **Nephrology Kidney Physiology Overview**

Lesson 8 : **Respiratory System Overview**

Lesson 9 : **Myology Skeletal Muscle Contraction**

Lesson 10 : **Myology Skeletal Muscle Sarcomere Myosin and Actin**

Lesson 11 : **Myology Skeletal Muscle Structure**

Lesson 12 : **Nephrology Kidney and Nephron Overview**

Lesson 13 : **Ear Anatomy**

Lesson 14 : **Cardiovascular System Anatomy**

Lesson 15 : **Digestive System Physiology Overview**

Lesson 16 : **Digestive System Anatomy**

Lesson 17 : **Vision Physiology Introduction**

Lesson 18 : **Neuromuscular Junction**

Lesson 19 : **DNA replication**

Lesson 20 : **Cells Overview**

Lesson 21 : **Hemostasis**

Lesson 22 : **Bone Homeostasis Calcium and Phosphate Hormones**

Lesson 23 : **Temperature Homeostasis Regulation**

Lesson 24 : **Immunology Overview**

Lesson 25 : **Immunology Innate Immunity Inflammatory Response**

Lesson 26 : **Bone Homeostasis Calcium and Phosphorus Part II**

Lesson 27 : **Bone Homeostasis Calcium and Phosphorus Part I**

Lesson 28 : **Renin Angiotensin System Structure Chymase**

Lesson 29 : **Renin Angiotensin System Renin Prorenin**

Lesson 30 : **Renin Angiotensin Aldosterone System Overview**

Lesson 31 : **G Protein Signalling**

Lesson 32 : **G Protein Signalling**

Lesson 33 : **Nociceptors An Introduction to Pain**

Lesson 34 : **Physiology of Vomiting**

Lesson 35 : **Dermatology Overview**

Lesson 36 : **Protein Digestion and Absorption**

Lesson 37 : **Mechanism of Breathing**

Lesson 38 : **Iron Physiology**

Lesson 39 : **Control Of Respiration regulation of breathing**

Lesson 40 : **Bilirubin Metabolism**

Lesson 41 : **Hemostasis**

Lesson 42 : **Bone Fracture Types Fracture Repair and Osteomyelitis**

Lesson 43 : **Starch Carbohydrate Digestion and Absorption**

Lesson 44 : **Physiology of Lipoproteins Cholesterol**

Lesson 45 : **Vitamin B12 Digestion and Absorption**

Lesson 46 : **Physiology of Coughing**

Lesson 47 : **Alcohol Physiology ethanol metabolism and biochemistry**

Lesson 48 : **Visual Pathway and Lesions**

Lesson 49 : **Light reflex**

Lesson 50 : **Skeletal System Overview**

Lesson 51 : **An introduction to Haematopoesis**

Lesson 52 : **Physiology of Vomiting Vomiting reflex NEW**

Lesson 53 : **Lung Function Lung Volumes and Capacities**

Lesson 54 : **Understanding Spirometry Normal Obstructive vs Restrictive**

Lesson 55 : **Oxygen Haemoglobin Dissociation Curve Physiology**

Lesson 56 : **Respiratory System Physiology Ventilation and Perfusion V Q Ratio Physiology**

Lesson 57 : **Pulmonary Vascular Physiology Pressure and Hypertension**

Lesson 58 :
PAIN Physiology The Ascending Pathway Descending Pain Pathway and the Substantia Gelatinosa

Lesson 59 :
Cardiovascular System Physiology Cardiac Output stroke volume heart rate preload and afterload

Lesson 60 : **Regulation of Cardiac Output and Mean Arterial Pressure relationships**

Lesson 61 : **Pancreas Clinical Anatomy and Physiology**

Lesson 62 : **Lung Pleura Clinical Anatomy and Physiology**

Lesson 63 : **Overview of Fluid and Electrolyte Physiology Fluid Compartment**

Lesson 64 :
Hormones in body fluid homestasis ADH vasopressin Aldosterone and Natriuretic peptides

Lesson 65 : **Introduction to how reflexes work reflex arc monosynaptic and polysynaptic reflexes**

Lesson 66 :
Strep throat streptococcal pharyngitis pathophysciology signs and symptoms diagnosis treatment

Lesson 67 : **Homeostasis negative and positive feedback thermoregulation and lactation**

Lesson 68 : **Fat lipid digestion and absorption physiology**

Lesson 69 : **Bilirubin Metabolism unconjugated and conjugated bilirubin**

Lesson 70 :
Approach to Shock types hypovolemic cardiogenic distributive anaphylaxis pathology treatment
