Mindluster Platform

About the course Beginning WebDriver Testing in Java

WebDriver is an interface provided by Selenium WebDriver. As we know that interfaces in Java are the collection of constants and abstract methods(methods without any implementation). The WebDriver interface serves as a contract that each browser specific implementation like ChromeDriver, FireFoxDriver must follow .

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Beginning Selenium WebDriver Testing in Java The Course Overview | packtpub com**

Lesson 2 : **Beginning Selenium WebDriver Testing in Java WebDriver Architecture | packtpub com**

Lesson 3 :
Beginning Selenium WebDriver Testing in Java Implementing Locators Using Java | packtpub com

Lesson 4 : **Beginning Selenium WebDriver Testing in Java Scenario Logging in | packtpub com**

Lesson 5 :
Beginning Selenium WebDriver Testing in Java Building On Our Example Based on Java | packtpub com
