Mindluster Platform

About the course Automating Web Testing with Selenium

You have learned that Python can do everything that a web browser can do, and a bit more. You could easily write scripts to control virtual browser instances that run in the cloud. You could create bots that interact with real users or mindlessly fill out forms! Go forth and automate!

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **Automating Web Testing with Selenium and Python The Course Overview | packtpub com**

Lesson 2 :
Automating Web Testing with Selenium and Python Selecting Locators in the DOM | packtpub com

Lesson 3 :
Automating Web Testing with Selenium and Python Executing JavaScript Code | packtpub com

Lesson 4 : **Automating Web Testing with Selenium and Python POM Design Pattern | packtpub com**

Lesson 5 :
Automating Web Testing with Selenium and Python Implementing SOLID Principles | packtpub com

Lesson 6 :
Automating Web Testing with Selenium and Python Work with Python unittest Module| packtpub com

Lesson 7 : **Automating Web Testing with Selenium and Python Configure WebDriver | packtpub com**

Lesson 8 : **Automating Web Testing with Selenium and Python Suite Preparation | packtpub com**
