Mindluster Platform

About the course Machine Learning Models in Python

Decision Tree algorithm in machine learning is one of the most popular algorithm in use today; this is a supervised learning algorithm that is used for classifying problems. It works well classifying for both categorical and continuous dependent variables .

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **Boosting Machine Learning Models in Python The Course Overview | packtpub com**

Lesson 2 :
Boosting Machine Learning Models in Python Using Bagged Decision Trees Algorithm | packtpub com

Lesson 3 :
Boosting Machine Learning Models in Python Using the AdaBoost Algorithm | packtpub com

Lesson 4 :
Boosting Machine Learning Models in Python Overview of Voting and Stacking | packtpub com

Lesson 5 : **Boosting Machine Learning Models in Python Introduction to XGBoost | packtpub com**

Lesson 6 : **Boosting Machine Learning Models in Python The Course Overview | packtpub com**
