Mindluster Platform

About the course Data Analysis with R Programming

R analytics is data analytics using R programming language, an open-source language used for statistical computing or graphics. This programming language is often used in statistical analysis and data mining. It can be used for analytics to identify patterns and build practical models .

Programming Category's Courses

Course Lesson(7)

Lesson 1 : **Exploratory Data Analysis with R The Course Overview | packtpub com**

Lesson 2 : **Exploratory Data Analysis with R Importing Your Data | packtpub com**

Lesson 3 : **Exploratory Data Analysis with R Defining the Required Data Quality | packtpub com**

Lesson 4 : **Exploratory Data Analysis with R Distribution and Summary Statistics | packtpub com**

Lesson 5 : **Exploratory Data Analysis with R Summary Statistics for Correlation | packtpub com**

Lesson 6 : **Exploratory Data Analysis with R Need for Model Assumptions | packtpub com**

Lesson 7 : **Exploratory Data Analysis with R Leveraging R Markdown Notebooks | packtpub com**
