About the course Cisco Application Centric Infrastructure ACI

Cisco Application Centric Infrastructure (ACI) is a software-defined networking (SDN) solution designed for data centers. Cisco ACI allows network infrastructure to be defined based upon network policies â€“ simplifying, optimizing, and accelerating the application deployment lifecycle.

Programming Category's Courses

Course Lesson(9)

Lesson 1 : **Learning Cisco Application Centric Infrastructure The Course Overview | packtpub com**

Lesson 2 :
Learning Cisco Application Centric Infrastructure Connecting an ACI Fabric Together | packtpub com

Lesson 3 :
Cisco Application Centric Infrastructure Interface Policy Groups Profiles Policies| packtpub com

Lesson 4 : **Learning Cisco Application Centric Infrastructure Fabric Tenants | packtpub com**

Lesson 5 :
Learning Cisco Application Centric Infrastructure ACI Tenant Networking | packtpub com

Lesson 6 :
Learning Cisco Application Centric Infrastructure External L3OUT with BGP | packtpub com

Lesson 7 : **Learning Cisco Application Centric Infrastructure External L2OUT | packtpub com**

Lesson 8 :
Learning Cisco Application Centric Infrastructure Rest API with ACI Toolkit | packtpub com

Lesson 9 :
Cisco Application Centric Infrastructure Understanding Faults and Health Scores | packtpub com
