Mindluster Platform

About the course Optimize network traffic

Network optimization comprises the technologies, tools, and techniques that help maintain, improve, or maximize performance across all network domains. These elements are used to monitor, manage, and optimize performance metrics to help ensure the highest levels of service for users throughout the network .

Programming Category's Courses

Course Lesson(9)

Lesson 1 : **Optimize network traffic with Microsoft Graph**

Lesson 2 : **Identifying throttled requests**

Lesson 3 : **Demo Create Azure AD app to submit requests to Microsoft Graph**

Lesson 4 :
Demo Create NET console app to trigger and display throttled requests to Microsoft Graph

Lesson 5 : **Avoid throttling implement throttling strategies**

Lesson 6 : **Demo Avoid throttling implement throttling strategies**

Lesson 7 : **Demo Implement Microsoft Graph SDK for throttling retry strategy**

Lesson 8 : **Eliminate polling Microsoft Graph with delta query**

Lesson 9 : **Demo Eliminate polling Microsoft Graph with delta query**
