Mindluster Platform

About the course Machine Learning python basics for beginners

Machine Learning python basics course, in this course we will learn about the Machine Learning Python basics, covering essential concepts and techniques. From understanding the fundamentals of machine learning algorithms to implementing them in Python using libraries like NumPy, Pandas, and Scikit-learn, this course provides a solid foundation. Topics include data preprocessing, supervised and unsupervised learning, model evaluation, and deployment. Additionally, we'll explore deep learning principles with TensorFlow or Keras, natural language processing (NLP) techniques, and time series analysis. By the end, participants will grasp key concepts and practical skills necessary to embark on their machine learning journey.

Artificial Intelligence Category's Courses

Course Lesson(6)

Lesson 1 :
Python Tutorial in Hindi Learn Python in Hindi Python Full Course in Hindi Python Tutorial

Lesson 2 :
Machine Learning in Hindi Machine Learning Tutorial in Hindi Python for Machine Learning 2020

Lesson 3 :
AWS Tutorial for beginners in Hindi AWS Full Course Hindi Learn AWS In 5 Hours Great Learning

Lesson 4 : **Java Tutorial for Beginners in Hindi Java in Hindi Java Tutorial in Hindi Java full course**

Lesson 5 : **SQL Tutorial for Beginners in Hindi SQL Full Course Great Learning**

Lesson 6 : **C Tutorial For Beginners in Hindi C Programming C Full Course Great Learning**
