Through practical examples and case studies, you'll gain a solid understanding of the basics of Customer Analytics and its importance in driving business decisions and improving customer experiences.

Computer Science Category's Courses

Course Lesson(12)

Lesson 1 :
Advance your Career with PG Program in Machine Learning PGP ML Webinar Great Learning

Lesson 2 : **Webinar Customer Analytics using Machine Learning Great Learning**

Lesson 3 : **Webinar Customer Analytics using Machine Learning Great Learning**

Lesson 4 : **Your First Step into ML Learn The Basics of Machine Learning Great Learning**

Lesson 5 : **Build Career in AIML with Personalised Mentorship About Great Lakes Great Learning**

Lesson 6 : **Artificial Intelligence and Machine Learning PGP AIML Great Lakes Great Learning**

Lesson 7 :
Building Career In Machine Learning PG Program In Machine Learning Great Lakes Great Learning

Lesson 8 : **Live Masterclass on Movie Recommendation System**

Lesson 9 : **Live Masterclass on Movie Recommendation System**

Lesson 10 : **Live Masterclass on Movie Recommendation System**

Lesson 11 :
Statistics for Machine Learning Statistics Class 10 Statistics for Data Science Full Course

Lesson 12 :
Naive Bayes Classifier Tutorial Naive Bayes Demo Machine Learning Algorithm Great Learning
