About the course MySQL Stored Procedures and Functions

Stored routines (procedures and functions) are supported in MySQL 5.0. A stored procedure is a set of SQL statements that can be stored in the server. Once this has been done, clients don't need to keep reissuing the individual statements but can refer to the stored procedure instead.

Programming Category's Courses

Course Lesson(11)

Lesson 1 : **MySQL Stored Procedure 1 Intro to Stored Routines**

Lesson 2 : **MySQL Stored Procedure 2 Intro to Variables**

Lesson 3 : **MySQL Stored Procedure 3 Variables**

Lesson 4 : **MySQL Stored Procedure 4 Creating Variables within SELECT**

Lesson 5 : **MySQL Stored Procedure 5 SQL Fiddle CREATE DATABASE**

Lesson 6 : **MySQL Stored Procedure 6 How to Create Variables with SELECT and SET**

Lesson 7 : **MySQL Stored Procedure 7 Intro to Stored Procedures**

Lesson 8 : **MySQL Stored Procedure 8 Procedure Syntax**

Lesson 9 : **MySQL Stored Procedure 9 Database API Application Programming Interface**

Lesson 10 : **MySQL Stored Procedure 10 CREATE PROCEDURE**

Lesson 11 : **MySQL Stored Procedures All in One Quick Start Tutorial Series 1 HOUR**
