Mindluster Platform

About the course Batch Files Programming

Batch file programming is a way of making a computer do things simply by creating, yes, you guessed it, a batch file. It's a way of doing things you might ordinarily do in the command prompt, but automates some tasks, which means you don't have to write so much code .

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **how to create simple batch file | execute batch files | copy files using batch file**
