About the course Supervised Machine Learning topics

Supervised Machine Learning course in hindi, in this course is a fundamental course where participants delve into the core concepts of this branch of AI. Through lectures and practical exercises, students explore various algorithms and techniques used in supervised learning, including regression and classification. They learn to build predictive models from labeled data, understand model evaluation methods, and tackle real-world problems using popular tools and libraries. By the end, students gain a solid understanding of supervised learning principles and their applications in diverse domains.

Computer Science Category's Courses

Course Lesson(16)

Lesson 1 :
Supervised Machine Learning Tutorial for Beginners Part 13 Objective of Support Vector Machine

Lesson 2 : **Supervised Machine Learning Tutorial Part 15 Hands on SVM Dataset and Pair Plotting**

Lesson 3 :
Supervised Machine Learning Tutorial for Beginners Part 16 Hands on SVM Building model

Lesson 4 :
Supervised Machine Learning Tutorial for Beginners Part 14 Functional Margin Great Learning

Lesson 5 : **Supervised Machine Learning Tutorial Part 11 Hands on Exercise on Logistic Regression**

Lesson 6 :
Supervised Machine Learning Tutorial Part 12 Advantages and Disadvantages of Logistic Regression

Lesson 7 : **Supervised Machine Learning Tutorial for Beginners Part 8 Hands on Linear Regression**

Lesson 8 : **Supervised Machine Learning Tutorial for Beginners Part 7 Concept of Squared Errors**

Lesson 9 : **Supervised Machine Learning Tutorial for Beginners Part 6 How to Get the Best Fit Line**

Lesson 10 :
Supervised Machine Learning Tutorial Part 9 Why Logistic Regression is a Classification Technique

Lesson 11 :
Supervised Machine Learning Tutorial for Beginners Part 2 Why the Name Linear Regression

Lesson 12 :
Supervised Machine Learning Tutorial for Beginners Part 10 Logloss Function its Interpretation

Lesson 13 :
Supervised Machine Learning Tutorial Part 4 How Slope of Line is Measured in Linear Regression

Lesson 14 : **Supervised Machine Learning Tutorial for Beginners Part 5 Coefficient of Correlation**

Lesson 15 :
Supervised Machine Learning Tutorial Part 3 Linear Models are Linear in Terms of Coefficient

Lesson 16 :

Supervised Machine Learning Tutorial for Beginners Part 1 What is Supervised Machine Learning
