Mindluster Platform

About the course Processing and Computer

data processing, manipulation of data by a computer. It includes the conversion of raw data to machine-readable form, flow of data through the CPU and memory to output devices, and formatting or transformation of output. Any use of computers to perform defined operations on data can be included under data processing.

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Video Processing in MATLAB**

Lesson 2 : **Medical Imaging Analysis and Visualization**

Lesson 3 : **Feature Detection Extraction and Matching with RANSAC**
