Mindluster Platform

About the course Spine anatomy fundamentals

Spine anatomy course, in this course we will learn about the intricate structure of the spine, encompassing vertebrae, discs, nerves, and ligaments. Participants will delve into the anatomy of each spinal region, including cervical, thoracic, lumbar, and sacral segments, exploring their unique features and functions. Through detailed lectures and interactive sessions, students will gain a comprehensive understanding of spinal anatomy, crucial for healthcare professionals, anatomists, and anyone interested in human biology. From basic concepts to advanced topics, this course provides a thorough examination of the spine's anatomical complexities, facilitating a deeper appreciation of its role in supporting posture, movement, and overall well-being.

Medical Category's Courses

Course Lesson(4)

Lesson 1 : **Meet My Wellden International Skeleton Ask Doctor Jo**

Lesson 2 : **Knee Anatomy Ask Doctor Jo**

Lesson 3 : **Spine Anatomy Disc Degeneration Ask Doctor Jo**

Lesson 4 : **Meet My Axis Scientific Muscle Replica Model Ask Doctor Jo**
