About the course Antibiotic resistance genes

Antibiotic resistance genes course, in this course we will learn about the Antibiotic resistance genes and their profound impact on public health. Delve into the mechanisms underlying antibiotic resistance, exploring how these genes evolve and spread among bacterial populations. Discover the clinical implications and challenges associated with antibiotic resistance, and explore strategies for combatting this pressing global health threat. Gain insights into surveillance methods, molecular mechanisms, and novel interventions aimed at preserving the effectiveness of antibiotics. Join us as we navigate the complex landscape of antibiotic resistance genes and work towards sustainable solutions for safeguarding human health.

Medical Category's Courses

Course Lesson(20)

Lesson 1 : **Fecal Transplants for Aging and Weight Loss**

Lesson 2 : **Antibiotic Resistance Genes in the Guts of Vegetarians vs Meat Eaters**

Lesson 3 : **How to Cultivate a Healthy Gut Microbiome with Food**

Lesson 4 : **How to Reduce Your TMAO Levels**

Lesson 5 : **Microbiome We Are What They Eat**

Lesson 6 : **How Our Gut Bacteria Can Use Eggs to Accelerate Cancer**

Lesson 7 : **How to Become a Fecal Transplant Super Donor**

Lesson 8 : **How to Develop a Healthy Gut Ecosystem**

Lesson 9 : **Is Obesity Infectious**

Lesson 10 : **Egg Industry Response to Choline and TMAO**

Lesson 11 : **Gut Microbiome Strike It Rich with Whole Grains**

Lesson 12 : **Gut Dysbiosis Starving Our Microbial Self**

Lesson 13 : **Paleopoo What We Can Learn from Fossilized Feces**

Lesson 14 : **How to Change Your Enterotype**

Lesson 15 : **What s Your Gut Microbiome Enterotype**

Lesson 16 : **Prebiotics Tending Our Inner Garden**

Lesson 17 : **Microbiome The Inside Story**

Lesson 18 : **Putrefying Protein and â€œToxifyingâ€ Enzymes**

Lesson 19 : **Bowel Wars Hydrogen Sulfide vs Butyrate**

Lesson 20 : **Stool pH and Colon Cancer**
