# About the course Data handling using pandas techniques

Data handling using pandas course in hindi, in this course we embark on a journey through the powerful capabilities of Pandas, a Python library renowned for its efficiency in data manipulation and analysis. Throughout the course, you'll dive deep into the core functionalities of Pandas, learning how to effectively handle, clean, manipulate, and analyze data of various types and sizes. From basic operations like data loading and cleaning to advanced techniques such as time series analysis and machine learning integration, this course covers a wide range of topics to equip you with the skills needed to excel in data handling tasks. Through hands-on exercises, practical examples, and real-world case studies, you'll gain a comprehensive understanding of Pandas and its applications in data science. Whether you're a beginner looking to establish a solid foundation in data handling or an experienced practitioner seeking to enhance your skills, this course provides the perfect opportunity to elevate your expertise in Pandas and take your data analysis capabilities to new heights. Join us on this exciting journey as we explore the vast possibilities of data handling using Pandas.

**Computer Science Category's Courses**

# Course Lesson(7)

Lesson 1 :
**15 Minutes Masterclass Quick Revision Data Handling Using Pandas I Class 12 IP Code 065**

Lesson 2 :
**15 Minutes Masterclass Quick Revision Data Handling Using Pandas II Class 12 IP Code 065**

Lesson 3 :
**15 Min Quick Revision of Querying SQL Functions Multiple Row Function Class 12 IP Code 065**

Lesson 4 :
**15 Minutes Quick Revision of Querying SQL Functions Single Row Function Class 12 IP Code 065**

Lesson 5 :
**15 Minutes Quick Revision of Internet and Web Part 1 Class 12 Informatics Practice Code 065**

Lesson 6 :
**15 Minutes Quick Revision of Internet and Web Part 2 Class 12 Informatics Practice Code 065**

Lesson 7 : **15 Minutes Quick Revision of Plotting Data Using Matplotlib Class 12 IP Code 065**
