Mindluster Platform

About the course IBM Cloud Pak for network automation

IBM Cloud Pak course, in this course we explore the comprehensive suite of solutions designed to facilitate the development, deployment, and management of cloud-native applications across hybrid and multicloud environments. IBM Cloud Pak serves as an integrated architectural framework, empowering organizations to harness the power of artificial intelligence, cloud computing, analytics, and automation. Throughout this course, participants will delve into the various offerings within IBM Cloud Pak, such as IBM Cloud Pak for Applications, IBM Cloud Pak for Data, and IBM Cloud Pak for Integration, gaining insights into their capabilities and functionalities. From accelerating development cycles to enhancing operational efficiency, enabling advanced analytics and AI capabilities, and fostering seamless integration across diverse systems, IBM Cloud Pak offers a multitude of benefits for organizations seeking to innovate and thrive in today's digital landscape. Through hands-on exercises and practical examples, learners will acquire the knowledge and skills needed to leverage IBM Cloud Pak effectively in their organizations, driving agility, scalability, and competitiveness.

Computer Science Category's Courses

Course Lesson(16)

Lesson 1 :
IBM Cloud Pak for Network Automation Evolve to zero touch operations with AI powered automation

Lesson 2 : **IBM Cloud Paks Explained**

Lesson 3 : **IBM Cloud Pak for Integration Under the Hood**

Lesson 4 : **IBM Cloud Paks AI Powered Software to Advance Digital Transformation**

Lesson 5 : **Intelligent automation solution for insurance claims with IBM Cloud Paks**

Lesson 6 : **Predict and automate outcomes with IBM Cloud Pak for Data**

Lesson 7 : **How CIOs benefit from insurance claims automation with IBM Cloud Paks**

Lesson 8 : **How claims adjusters benefit from insurance claims automation with IBM Cloud Paks**

Lesson 9 : **What are IBM Cloud Paks**

Lesson 10 : **Manage all of your data anywhere with AutoSQL in IBM Cloud Pak for Data**

Lesson 11 : **IBM Cloud Pak for Business Automation Drive innovation in business operations**

Lesson 12 : **Assure Performance with Smarter Application Resource Management ARM**

Lesson 13 : **Deliver quality data with a unified data and AI platform**

Lesson 14 : **Incident management doesn t have to be a headache**

Lesson 15 : **Modernize Retail Stores with AI Powered Hybrid Cloud Software**

Lesson 16 : **Modernize Banking with Cloud Native Solutions infused with AI and ML**
