About the course Mobile Communication technologies

Mobile Communication technologies course, in this course we delve into the realm of wireless communication systems that empower the modern world. Mobile Communication technologies revolutionize how we connect, communicate, and access information on-the-go. Through a comprehensive exploration, we uncover the underlying principles, protocols, and standards governing cellular networks, Wi-Fi, Bluetooth, and emerging technologies like 5G. Students gain insights into the architecture, operation, and advancements in mobile networks, equipping them with the knowledge to navigate the dynamic landscape of mobile communications. Whether it's understanding the fundamentals of GSM, CDMA, LTE, or exploring the transformative potential of 5G and beyond, this course offers a foundational understanding and practical insights into Mobile Communication Technologies.

Technology Category's Courses

Course Lesson(14)

Lesson 1 : **What is Internet**

Lesson 2 : **What is world wide web**

Lesson 3 : **What is URL or Web Address**

Lesson 4 : **What are Servers**

Lesson 5 : **Network Protocols**

Lesson 6 : **What is Email**

Lesson 7 : **What is eGovernance**

Lesson 8 : **eShopping**

Lesson 9 : **eBanking**

Lesson 10 : **â€ŒInformation Security**

Lesson 11 : **Mobile Technologies**

Lesson 12 : **Operating Systems**

Lesson 13 : **Email Protocols**

Lesson 14 : **Understanding CBSE Assessment Scheme for Board Exam 2022**
