Mindluster Platform

About the course Angular Authentication

When your users need to log in, your Angular application triggers an authentication event, which it handles by redirecting them to a customizable Auth0 login page. Once your users log in successfully, Auth0 redirects them back to your Angular application, returning tokens with their authentication and user information.

Programming Category's Courses

Course Lesson(28)

Lesson 1 : **Angular Authentication Tutorial 1 Introduction**

Lesson 2 : **Angular Authentication Tutorial 2 Course Overview**

Lesson 3 : **Angular Authentication Tutorial 3 Installing the Essentials**

Lesson 4 : **Angular Authentication Tutorial 4 Express Server**

Lesson 5 : **Angular Authentication Tutorial 5 Setting up MongoDB with mLab**

Lesson 6 : **Angular Authentication Tutorial 6 Setting up Mongoose**

Lesson 7 : **Angular Authentication Tutorial 7 Registration API**

Lesson 8 : **Angular Authentication Tutorial 8 Testing User Registration with Postman**

Lesson 9 : **Angular Authentication Tutorial 9 Login API**

Lesson 10 : **Angular Authentication Tutorial 10 Testing User Login with Postman**

Lesson 11 : **Angular Authentication Tutorial 11 Events API**

Lesson 12 : **Angular Authentication Tutorial 12 Generating angular app with CLI**

Lesson 13 : **Angular Authentication Tutorial 13 Adding Components and Routing**

Lesson 14 : **Angular Authentication Tutorial 14 Registration UI**

Lesson 15 : **Angular Authentication Tutorial 15 Registration Service**

Lesson 16 : **Angular Authentication Tutorial 16 Login UI**

Lesson 17 : **Angular Authentication Tutorial 17 Login Service**

Lesson 18 : **Angular Authentication Tutorial 18 Events Service**

Lesson 19 : **Angular Authentication Tutorial 19 Events UI**

Lesson 20 : **Angular Authentication Tutorial 20 Authentication Overview**

Lesson 21 : **Angular Authentication Tutorial 21 Intro to JSON Web Tokens**

Lesson 22 : **Angular Authentication Tutorial 22 Generating JWT in the back end**

Lesson 23 : **Angular Authentication Tutorial 23 Storing JWT in the front end**

Lesson 24 : **Angular Authentication Tutorial 24 Special Events Route Guard**

Lesson 25 : **Angular Authentication Tutorial 25 Creating a Token Interceptor**

Lesson 26 : **Angular Authentication Tutorial 26 Middleware to Verify Token**

Lesson 27 : **Angular Authentication Tutorial 27 Implementing logout**

Lesson 28 : **Angular Authentication Tutorial 28 Suggestions for the Application**
