Mindluster Platform

About the course AutoCAD drawing for beginners

AutoCAD drawing course, in this course participants will delve into the core principles and practical applications of drawing using AutoCAD software. This comprehensive program serves as a gateway for beginners, providing a thorough understanding of the essential tools, commands, and techniques required to create precise and professional-quality drawings. Through hands-on exercises and step-by-step tutorials, students will learn how to navigate the AutoCAD interface, set up drawing environments, create and edit various geometric shapes, apply annotations and dimensions, and produce presentation-ready drawings. The course covers fundamental concepts such as layers, line types, and object properties, empowering participants to efficiently organize and manipulate drawing elements. Whether you're a novice seeking to master the basics of CAD drafting or an experienced professional looking to enhance your skills, "AutoCAD Drawing" offers a tailored learning experience to suit your needs. Join us as we embark on a journey into the world of digital drawing, equipping you with the knowledge and skills to create precise and visually compelling drawings using AutoCAD.

Engineering Category's Courses

Course Lesson(8)

Lesson 1 : **AutoCAD Drawing Tutorial for Beginners 1**

Lesson 2 : **AutoCAD Drawing Tutorial for Beginners 2**

Lesson 3 : **AutoCAD Drawing Tutorial for Beginners 3**

Lesson 4 : **AutoCAD Drawing Tutorial for Beginners 4**

Lesson 5 : **AutoCAD Drawing Tutorial for Beginners 5**

Lesson 6 : **AutoCAD Drawing Tutorial for Beginners 6**

Lesson 7 : **AutoCAD Simple Floor Plan for Beginners 5 of 5**

Lesson 8 : **AutoCAD Drawing in Feet and Inches**
