Mindluster Platform

About the course SketchUp modeling for beginners

SketchUp modeling course, in this course designed to equip participants with the skills needed to master 3D modeling using SketchUp software. Tailored for beginners and enthusiasts, this program provides a structured exploration of modeling techniques, from basic shapes to intricate designs. Through practical exercises and guided instruction, participants will learn to navigate SketchUp's interface, manipulate objects, and create detailed models. Topics covered include creating and editing shapes, using drawing tools, applying textures and materials, and organizing models efficiently. By the end of the course, students will have acquired the skills and confidence to produce professional-grade 3D models ready for visualization, presentation, or fabrication. Whether you're an architect, designer, or hobbyist, "SketchUp Modeling" offers the essential knowledge and tools to unleash your creativity and bring your ideas to life in three dimensions. Join us as we embark on a journey into the world of SketchUp modeling and unlock the potential of digital design.

Engineering Category's Courses

Course Lesson(12)

Lesson 1 : **SketchUp Tutorial for Beginners 1**

Lesson 2 : **SketchUp Floor Plan Tutorial for Beginners**

Lesson 3 : **SketchUp Floor Plan Tutorial for Beginners 2**

Lesson 4 : **SketchUp Floor Plan Tutorial for Beginners 3**

Lesson 5 : **SketchUp House Tutorial for Beginners 1**

Lesson 6 : **SketchUp House Tutorial for Beginners 2**

Lesson 7 : **SketchUp House Tutorial for Beginners 3**

Lesson 8 : **SketchUp Modeling Tutorial for Beginners**

Lesson 9 : **SketchUp Draw Line at Angle**

Lesson 10 : **SketchUp Draw Rectangle with Dimensions**

Lesson 11 : **SketchUp Draw Rectangle on Blue Axis**

Lesson 12 : **SketchUp 3D Modeling Shorts**
