Mindluster Platform

About the course Siemens Nx CAD modeling for beginners

Siemens Nx CAD modeling course, in this course participants delve into the fundamentals and advanced techniques of utilizing Siemens NX CAD software. Through interactive modules, students gain hands-on experience in creating precise 3D models, intricate assemblies, and detailed drawings. The curriculum covers parametric modeling principles, surface modeling, assembly design, drafting, and integration with simulation tools. Emphasis is placed on practical applications across various industries, empowering learners to efficiently design and innovate products. With a focus on real-world scenarios, this course equips individuals with the skills needed to excel in Siemens NX CAD modeling, fostering creativity and proficiency in product development.

Engineering Category's Courses

Course Lesson(28)

Lesson 1 : **NX Tutorial for Beginners 1**

Lesson 2 : **NX Tutorial for Beginners 2**

Lesson 3 : **NX Tutorial for Beginners 3**

Lesson 4 : **NX Training Exercises Tutorial 1**

Lesson 5 : **NX Tutorial for Beginners 4**

Lesson 6 : **NX Training Exercises Tutorial 2**

Lesson 7 : **NX Training Exercises Tutorial 3**

Lesson 8 : **Siemens Nx CAD Basic Modeling Training Tutorial for Beginner 1 Updated**

Lesson 9 : **Nx Training Exercises Tutorial 4**

Lesson 10 : **Nx Training Exercises Tutorial 5**

Lesson 11 : **Nx Training Exercises Tutorial 6**

Lesson 12 : **NX Training Exercises Tutorial 7**

Lesson 13 : **Nx Swept Command Tool Tutorial**

Lesson 14 : **Nx Advanced Simulation Tutorial**

Lesson 15 : **Siemens Nx Training Tutorial UG Nx CAD Tutorial Edge Blend**

Lesson 16 : **Siemens Nx Training Tutorial UG Nx CAD Tutorial Chamfer**

Lesson 17 : **Siemens Nx Training Tutorial UG Nx CAD Tutorial Datum Plane**

Lesson 18 : **Siemens Nx Training Tutorial UG Nx CAD Tutorial Mirror body**

Lesson 19 : **Siemens Nx Training Tutorial UG Nx CAD Tutorial Mirror Feature**

Lesson 20 : **Siemens Nx CAD Basic Modeling Training Tutorial for Beginner 2 UG NX**

Lesson 21 : **Siemens Nx Training Tutorial UG Nx CAD Tutorial How to create Rib Stiffener in Nx**

Lesson 22 :
NX Swept UG NX Training Tutorials Siemens NX Training Tutorials Training in Unigraphics NX

Lesson 23 : **Siemens Nx CAD Basic Modeling Training Tutorial for Beginner 3 UG NX**

Lesson 24 :
NX Assembly Tutorial NX Assembly Constraints UG Unigraphics Siemens NX Training Tutorial

Lesson 25 : **NX Extrude Part of a Sketch Multiple Extrude from one Sketch Siemens NX Tutorials**

Lesson 26 : **Nx Extrude Until Selected Nx Extrude to Surface**

Lesson 27 : **Nx Extrude at Angle Siemens Nx Tutorials**

Lesson 28 : **Nx Copy Sketch to New Part Siemens Nx Tutorials**
