About the course Secured Transactions Fundamentals

Secured Transactions course, in this course we delve into the intricate world of Secured Transactions, exploring the legal framework and practical applications of securing interests in personal property to fulfill obligations. Beginning with foundational principles, we navigate through the complexities of collateral, perfection, and priority rules. Through case studies and real-world scenarios, we analyze the role of secured transactions in commercial transactions, understanding how they mitigate risks for creditors and debtors alike. By examining various security devices such as mortgages, pledges, and security agreements, students gain a comprehensive understanding of how security interests are created, perfected, and enforced. Throughout the course, we emphasize the importance of compliance with statutory requirements and the implications of non-compliance. Ultimately, students emerge equipped with the knowledge and skills to navigate the nuances of secured transactions confidently.
