Mindluster Platform

About the course Artificial Intelligence in Azure

Course Presenter : Inside Cloud and Security

Artificial Intelligence in Azure course explores the vast capabilities of AI in the Azure cloud platform. Participants will delve into various AI services, including machine learning, cognitive services, computer vision, and natural language processing. Gain hands-on experience in building intelligent applications and leveraging Azure's AI tools. Learn how to harness the power of AI to extract insights, automate processes, enhance user experiences, and make informed business decisions. Join this course to unlock the potential of artificial intelligence in Azure and propel your organization into the future of AI-driven innovation. Inside Cloud and Security

Computer Science Category's Courses

Course Lesson(3)

Lesson 1 : **Intro to AI Detecting and Analyzing Faces with the Face API**

Lesson 2 : **AIFOREVERYONE Predictive Maintenance Using Cognitive Vision**

Lesson 3 : **What is happening here shorts welding**
