About the course CompTIA Security+ For beginners

Course Presenter : Louay Karadsheh, PhD, CISSP, CEH, CASP

CompTIA Security+ For beginners course provides a foundational understanding of cybersecurity concepts. Learn about network security, risk management, cryptography, and more. Gain essential skills to secure computer systems and protect data. Develop a solid foundation for entry-level cybersecurity roles. Join this course to kickstart your cybersecurity journey and prepare for the CompTIA Security+ certification exam. Louay Karadsheh, PhD, CISSP, CEH, CASP

Computer Science Category's Courses

Course Lesson(15)

Lesson 1 : **CompTIA Security Chapter 15 Risk Management and Data Privacy**

Lesson 2 : **CompTIA Security Chapter 14 Cybersecurity Resilience**

Lesson 3 : **CompTIA Security Chapter 13 Incident Preparation Response and Investigation**

Lesson 4 : **CompTIA Security Chapter 12 Authentication**

Lesson 5 : **CompTIA Security Chapter 10 Cloud and Virtualization Security**

Lesson 6 : **CompTIA Security Chapter 11 Wireless Network Security**

Lesson 7 : **CompTIA Security Chapter 8 Networking Threats Assessments and Defenses**

Lesson 8 : **CompTIA Security Chapter 9 Network Security Appliances and Technologies**

Lesson 9 : **CompTIA Security Chapter 7 Public Keys Infrastructure and Cryptographic Protocols**

Lesson 10 : **CompTIA Security Chapter 6 Basic Cryptography**

Lesson 11 : **CompTIA Security Chapter 5 Mobile Embedded and Specialized Device Security**

Lesson 12 : **CompTIA Security Chapter 4 Endpoint and Application Development Security**

Lesson 13 : **CompTIA Security Chapter 3 Threats and Attacks on Endpoints**

Lesson 14 : **CompTIA Security Chapter 2 Threat Management Cybersecurity Resources**

Lesson 15 : **CompTIA Security Chapter 1 Introduction to Security**
