About the course Cyberseclabs Walkthrough

Course Presenter : Motasem Hamdan

Cyberseclabs Walkthrough course offers step-by-step guidance through real-world cybersecurity challenges. Explore practical scenarios, exploit vulnerabilities, and master offensive and defensive techniques. Enhance your skills in penetration testing, network security, and incident response. Join this course to gain hands-on experience and sharpen your cybersecurity expertise with Cyberseclabs Walkthrough. Motasem Hamdan

Computer Science Category's Courses

Course Lesson(34)

Lesson 1 : **Windows Privilege Escalation in XML Files Cyberseclabs Unattend**

Lesson 2 : **Python Training Cyberseclabs Fuel Walkthrough**

Lesson 3 : **Windows Services Privilege Escalation Cyberseclabs Cold Walkthrough**

Lesson 4 : **Windows Registry Privilege Escalation Cyberseclabs Glass Walkthrough**

Lesson 5 : **Windows Operating System Pentration Testing EP1 Cyberseclabs Cold**

Lesson 6 : **Penetration testing series Part10 Cyberseclabs CMS walkthrough**

Lesson 7 : **Penetration testing series Part8 Cyberseclabs Boats Walkthrough**

Lesson 8 : **Penetration Testing Series Part 6 Cyberseclabs Potato Walkthrough**

Lesson 9 : **Basic and Easy to learn Linux Penetration Testing Cyberseclabs PIE**

Lesson 10 : **FTP Penetration Testing Cyberseclabs Imposter**

Lesson 11 :
Learnning Windows Privilege Escalation Through DLL Hijacking Cyberseclabs Walkthrough

Lesson 12 : **Windows Privilege Escalation Through Windows Services Cyberseclabs SAM**

Lesson 13 : **Linux Privilege Escalation Through Security Misconfigurations Cyberseclabs Unroot**

Lesson 14 : **Linux Penetration Testing and Cybersecurity Training Cyberseclabs Outdated**

Lesson 15 : **Windows Weak Login Credentials Cyberseclabs Weak**

Lesson 16 : **File Upload Vulnerability P2 Cyberseclabs Engine**

Lesson 17 : **How to Decrypt Password Databases Offline Cyberseclabs Stack**

Lesson 18 : **Unquoted services in Windows Server Cyberseclabs Deployable**

Lesson 19 : **Demonstrating Linux Systemctl Services Exploitation Cyberseclabs Simple**

Lesson 20 :
Linux Privilege Escalation Through Misconfigured File Permissions Cyberseclabs Leakage

Lesson 21 : **Using Python and SSH To Gain Root Access Cyberseclabs Shares**

Lesson 22 : **Demonstrating Web Application Vulnerabilities Cyberseclabs Shock**

Lesson 23 : **How to Perform Windows Active Directory Penetration Testing Cybeseclabs Secret**

Lesson 24 : **The Zero Logon Active Directory Vulnerability Cyberseclabs Zero**

Lesson 25 : **Using Python Interpreters and Hex Editors To Gain Root Access Cyberseclabs Debug**

Lesson 26 : **Advanced Active Directory Penetration Testing Cyberseclabs Sync**

Lesson 27 :
Experiment on Bypassing Windows Anti Malware Scanner with Powershell Cyberseclabs Toast

Lesson 28 : **Pentesting Microsoft SQL Server In Windows Active Directory Cyberseclabs Mount**

Lesson 29 : **Easy and Basic Linux Pentesting Cyberseclabs Lazy**

Lesson 30 :
Extract FireFox Browser Credentials in Windows Active Directory Cyberseclabs Dictionary

Lesson 31 : **Pentesting Service Accounts in Windows Active Directory Cyberseclabs Roast**

Lesson 32 : **DNS Admins in Windows Active Directory Cyberseclabs Brute**

Lesson 33 : **Pentesting WordPress And Accessing Filtered Ports Cyberseclabs Office**

Lesson 34 : **Data Stores Frameworks in Linux Cyberseclabs Redis**
