Mindluster Platform

About the course Angular 6 for beginners

Angular 6 is a JavaScript framework for building apps and web application in HTML, JavaScript and TypeScript which is a superset of JavaScript. Angular provides built-in features for the http services, animation and materials which in turn provide features of auto-complete, toolbar, navigation, menus etc .

Programming Category's Courses

Course Lesson(38)

Lesson 1 : **Creating angular 6 project**

Lesson 2 : **Install Bootstrap for Angular 6**

Lesson 3 : **Angular 6 routing tutorial**

Lesson 4 : **Angular reactive forms**

Lesson 5 : **Angular form control and form group**

Lesson 6 : **Angular nested form groups**

Lesson 7 : **Angular setvalue and patchvalue methods**

Lesson 8 : **Angular formbuilder example**

Lesson 9 : **Angular reactive forms validation**

Lesson 10 : **Angular form control valuechanges**

Lesson 11 : **Loop through all form controls in formgroup in reactive form**

Lesson 12 : **Move validation messages to the component class in reactive form**

Lesson 13 : **Move validation logic to the component class in reactive form**

Lesson 14 : **Dynamically adding or removing form control validators in reactive form**

Lesson 15 : **Angular reactive form custom validator**

Lesson 16 : **Angular reactive form custom validator with parameter**

Lesson 17 : **How to make angular custom validator reusable**

Lesson 18 : **Angular reactive forms cross field validation**

Lesson 19 : **Angular formarray example**

Lesson 20 : **Creating formarray of formgroup objects in Angular**

Lesson 21 : **Angular dynamic forms tutorial**

Lesson 22 : **Generate unique id value for dynamically created form controls in angular**

Lesson 23 : **Angular dynamic forms validation**

Lesson 24 : **Angular formarray validation**

Lesson 25 : **Remove dynamically created form controls in angular**

Lesson 26 : **RxJS operators in angular services**

Lesson 27 : **Angular reactive forms edit example**

Lesson 28 : **Angular populate formarray**

Lesson 29 : **Angular reactive forms put example**

Lesson 30 : **Angular reactive forms post example**

Lesson 31 : **Angular modules explained**

Lesson 32 : **Creating feature module in angular**

Lesson 33 : **Creating feature routing module in angular**

Lesson 34 : **Creating shared module in angular**

Lesson 35 : **Grouping routes and creating component less route in angular**

Lesson 36 : **Lazy loading in angular**

Lesson 37 : **Preloading angular modules**

Lesson 38 : **Angular custom preloading strategy**
