About the course Using macros in excel for beginners

Using macros in excel course, in this course will dive into the realm of automation by harnessing the power of macros within Microsoft Excel. This course is designed to equip learners with the essential knowledge and skills needed to create, record, edit, and execute macros efficiently. Throughout the training, students will explore various macro recording techniques, delve into the Visual Basic for Applications (VBA) editor to customize macros, and learn how to streamline repetitive tasks, enhance productivity, and minimize errors in Excel workflows. By mastering the art of macros, participants will gain the confidence to tackle complex data manipulation, formatting, and analysis challenges with ease, ultimately becoming proficient Excel users capable of leveraging automation to drive efficiency and effectiveness in their day-to-day operations.

Computer Softwares Category's Courses

Course Lesson(12)

Lesson 1 : **Excel VBA Explained for Beginners**

Lesson 2 : **How to Record a Macro in Excel**

Lesson 3 : **How to Create Complex Macros in Excel**

Lesson 4 : **Understanding VBA Code in Microsoft Excel VBA for Beginners**

Lesson 5 : **How to Use the FILTER Function in Excel Excel FILTER Tutorial**

Lesson 6 : **Multiple Dependent Drop Down Lists in Excel Data Validation in Excel FILTER UNIQUE**

Lesson 7 : **The XLOOKUP Function in Excel XLOOKUP Excel Tutorial**

Lesson 8 : **How to Extract Part of Text String from an Excel Cell**

Lesson 9 : **VBA Excel Edit a Macro using VBA in Excel Tutorial**

Lesson 10 : **How to Use Macros in Excel Excel Macros for Dummies Basic VBA**

Lesson 11 : **Mastering Dynamic Array Functions in Excel Tutorial Detailed How To Training Session**

Lesson 12 : **New Dynamic Array Functions New Excel Feature Training Tutorial**
