About the course Linux for Hackers for Beginners

Course Presenter : NetworkChuck

Linux for Hackers for Beginners Course: In this course, designed for beginners, we will explore Linux as a powerful operating system for ethical hacking and security purposes. Learn essential Linux commands, file system navigation, and network configuration. Discover security-focused distributions like Kali Linux and their pre-installed tools for penetration testing, vulnerability scanning, and network analysis. Develop practical skills to identify and mitigate security risks, understand common hacking techniques, and reinforce network defenses. Gain a foundational understanding of Linux and its applications in the realm of ethical hacking. NetworkChuck

Computer Science Category's Courses

Course Lesson(10)

Lesson 1 : **Linux for Hackers EP 1 FREE Linux course for beginners**

Lesson 2 : **the Linux File System explained in 1 233 seconds Linux for Hackers EP 2**

Lesson 3 : **HELP for when you suck at Linux Linux for Hackers EP3**

Lesson 4 : **sudo POWER managing users in Linux Linux for Hackers EP4**

Lesson 5 : **apt dpkg git Python PiP Linux Package Management Linux for Hackers EP 5**

Lesson 6 : **start stop restart Linux services daemon HUNTING Linux for Hackers EP 6**

Lesson 7 : **KILL Linux processes also manage them Linux for Hackers EP 7**

Lesson 8 : **2 cool web things to do in Linux Linux for Hackers EP 8**

Lesson 9 : **you need to HACK faster Linux Terminal hacks YOU NEED**

Lesson 10 : **i KILLED my Linux computer to teach you something**
