About the course Introduction to AI For beginners

Course Presenter : URDUIT Academy

Introduction to AI For beginners Course: In this course, designed for beginners, you will learn about the fundamentals of Artificial Intelligence (AI). Understand key concepts, such as machine learning, neural networks, and data analysis. Explore real-world applications of AI in various industries. Gain insights into the ethical considerations and challenges associated with AI. With practical examples and interactive exercises, this course provides a solid foundation in AI principles and prepares you to explore advanced topics in the field. Suitable for individuals with no prior knowledge of AI, this course offers an accessible introduction to the exciting world of artificial intelligence. URDUIT Academy

Computer Science Category's Courses

Course Lesson(8)

Lesson 1 : **Lecture 3 Different Machine learning Models Artificial Intelligence Introduction to AI**

Lesson 2 : **Introduction to AI Lecture 1 Introduction to AI Artificial Intelligence**

Lesson 3 : **Lecture 2 What is Machine Learning Artificial Intelligence Introduction to AI**

Lesson 4 : **Lecture 4 Building an Image Classifier Artificial Intelligence AI Machine Learning Basics**

Lesson 5 : **Introduction to AI Course and Trainer**

Lesson 6 :
Lecture 6 Understanding AI Custom Chatbots Artificial Intelligence AI Machine Learning Basics

Lesson 7 : **Lecture 5 Speech Recognition Artificial Intelligence Introduction to AI**

Lesson 8 : **Lecture 7 AI Image Generation Artificial Intelligence Introduction to AI AIArt**
