About the course CISCO ACI

Course Presenter : URDUIT Academy

CISCO ACI Course: In this course, you will gain comprehensive knowledge of Cisco's Application Centric Infrastructure (ACI). Learn to design, deploy, and manage ACI-based networks using the policy-driven approach. Understand the architecture, components, and features of ACI. Explore topics like application network profiles, tenants, endpoint groups, and policy enforcement. Master the configuration and administration of ACI using the Application Policy Infrastructure Controller (APIC). With hands-on labs and real-world scenarios, this course equips you with the skills to implement and optimize ACI networks for enhanced agility and application performance. Suitable for network administrators and engineers seeking expertise in Cisco ACI. URDUIT Academy
