About the course MERN Stack series

Course Presenter : URDUIT Academy

MERN Stack series Course: In this comprehensive series, you will delve into the MERN (MongoDB, Express.js, React.js, Node.js) stack, a popular web development technology stack. Learn to build full-stack web applications using MongoDB as the database, Express.js as the backend framework, React.js as the frontend library, and Node.js as the runtime environment. Gain proficiency in setting up the development environment, building RESTful APIs, handling data in the MongoDB database, and creating dynamic user interfaces with React.js. With practical examples and hands-on projects, this series equips you with the skills to develop modern and scalable web applications using the MERN stack. Suitable for developers interested in full-stack JavaScript web development. URDUIT Academy
