About the course GDPR Series

Course Presenter : Hemang Doshi

GDPR Series Course: In this course, you will learn about the General Data Protection Regulation (GDPR), a comprehensive privacy law in the European Union. Explore the principles and requirements of GDPR, including data protection, consent, rights of individuals, and data breach notification. Understand the roles and responsibilities of data controllers and processors. With practical examples and case studies, gain expertise in implementing GDPR compliance measures. Suitable for professionals handling personal data, this course equips you to navigate the complexities of GDPR, ensure data privacy, and mitigate the risk of non-compliance. Hemang Doshi

Computer Science Category's Courses
