About the course Practical Aspects of Information System

Course Presenter : Hemang Doshi

Practical Aspects of Information System Course: In this course, you will explore the practical applications of information systems in a business context. Learn about data management, decision support systems, communication tools, and business process automation. Understand how information systems enhance customer service, streamline operations, and enable effective decision-making. With hands-on exercises, gain practical skills in utilizing information systems for improved business performance. Suitable for professionals and students, this course equips you with practical knowledge to leverage information systems for organizational success in today's digital era. Hemang Doshi

Computer Science Category's Courses

Course Lesson(14)

Lesson 1 : **Lecture 1 Introduction Practical Aspects of Information System Audits**

Lesson 2 : **Lecture 2 Information System Audit Report Format**

Lesson 3 : **Lecture 4 Step 2 Auditing controls related to Applications**

Lesson 4 : **Lecture 3 Step 1 Auditing Information Security Policies**

Lesson 5 : **Lecture 6 Step 3 1 Auditing Database Ownership**

Lesson 6 : **Lecture 7 Step 3 2 Auditing Database Categorization**

Lesson 7 : **Lecture 8 Step 3 3 Auditing Operating Systems of database**

Lesson 8 : **Lecture 5 Step 3 Auditing controls related to Database**

Lesson 9 : **Lecture 9 Step 3 4 Auditing Backup Location**

Lesson 10 : **Lecture 10 Step 3 5 Auditing Privilege Identification Management PIM**

Lesson 11 : **Lecture 11 Step 3 6 Auditing Secured Configuration Documents**

Lesson 12 : **Lecture 12 Step 3 7 Auditing Password Encryption**

Lesson 13 : **Lecture 13 Step 3 8 Auditing Encryption Algorithm**

Lesson 14 : **Lecture 14 Step 3 9 Auditing Restoration Test**
