Mindluster Platform

About the course DCCN wireless network security fundamentals

DCCN wireless network security course, in this course designed to equip you with the knowledge and skills to secure wireless networks within the realm of Data Communication and Computer Networks (DCCN). Throughout this course, you'll delve into the intricate world of wireless network security, exploring strategies and techniques to safeguard networks against cyber threats and attacks. From encryption protocols and intrusion detection systems to access management and security policies, you'll learn the fundamentals of protecting wireless networks from unauthorized access and data breaches. Through hands-on exercises and real-world case studies, you'll gain practical experience in implementing security measures to mitigate risks and ensure the confidentiality, integrity, and availability of data transmitted over wireless networks. Whether you're a beginner looking to understand the basics or an experienced professional seeking to enhance your skills, this course offers invaluable insights and practical guidance to navigate the complexities of DCCN wireless network security. Join us on this enlightening journey and empower yourself to defend against evolving cyber threats in the wireless networking landscape.

Computer Science Category's Courses

Course Lesson(26)

Lesson 1 :
Lec 1 1 Introduction to Data Communication II Basics of Communication in DCCN in Hindi

Lesson 2 : **Transmission Media in DCCN Data Communication Computer Network in Hindi**

Lesson 3 : **Types of Transmission Media in DCCN Computer Network in Hindi**

Lesson 4 : **Transmission Mode Simplex Half duplex Full duplex in Computer Network in Hindi**

Lesson 5 : **Multiplexing in Computer Network in Hindi**

Lesson 6 : **Frequency Division Multiplexing FDM technique in Computer Network in Hindi**

Lesson 7 : **Time Division Multiplexing in Computer Network in Hindi**

Lesson 8 : **Wavelength Division Multiplexing in Computer Network in Hindi**

Lesson 9 : **IP Addressing in Computer Network in hindi Detail Explaination of IP Address**

Lesson 10 : **Class A classful IP Addressing in Computer Network in hindi**

Lesson 11 : **Class B Classful IP Addressing in Computer Network in Hindi**

Lesson 12 : **Class C classful IP Addressing in Computer Network in Hindi**

Lesson 13 : **Class D Class E Classful IP Addressing in Computer Network in Hindi**

Lesson 14 : **Unicast Multicast Broadcast in Computer Network in Hindi**

Lesson 15 : **Special IP Addresses Loop Back Concept in Computer Network in Hindi**

Lesson 16 : **Subnetting in Computer Network in Hindi**

Lesson 17 : **LIFI Light Fidility technology in Computer Network in Hindi**

Lesson 18 : **Wireless Network Security in DCCN in Hindi**

Lesson 19 : **Wireshark in Computer Network in Hindi**

Lesson 20 : **Packet Sniffing Detailed Explanation in Computer Network in Hindi**

Lesson 21 : **DHCP in Hindi Advantage how it works**

Lesson 22 : **Lec 7 3 Router with Example in Hindi**

Lesson 23 : **Lec 9 3 Bluetooth Introduction Architecture Application in DCCN in Hindi**

Lesson 24 : **Lec 9 4 Comparison Between Bluetooth And Wi Fi in DCCN in Hindi**

Lesson 25 : **Transmission Impairment in DCCN in Hindi competitiveexamstechprep**

Lesson 26 :
Most Important Questions of Data Communication Computer network Most Expected Questions
