About the course Attack types in network security

Attack types in network security course, in this course designed to provide a thorough understanding of various types of cyber attacks that pose threats to network security. Throughout this course, participants will explore the spectrum of attack types, including but not limited to malware attacks, phishing, DDoS (Distributed Denial of Service) attacks, SQL injection, man-in-the-middle attacks, and insider threats. By delving into the intricacies of each attack type, learners will gain insights into their methodologies, motives, and potential impacts on network infrastructure and data integrity. Additionally, the course will cover techniques for detecting, mitigating, and preventing these attacks, equipping participants with the knowledge and skills to bolster network security defenses effectively. Through a combination of theoretical lessons, practical demonstrations, and case studies, participants will develop a comprehensive understanding of attack types in network security and strategies to safeguard against them. Let's embark on this journey to fortify network security and protect against cyber threats effectively.

Computer Science Category's Courses

Course Lesson(13)

Lesson 1 : **Network Security basic concept in Hindi**

Lesson 2 : **Principle Goals of Network Security**

Lesson 3 : **Types of Attack in Network Security in hindi**

Lesson 4 : **Cryptography Encryption Decryption in Hindi**

Lesson 5 : **Types of Cryptography Symmetric Asymmetric Hash function in Hindi**

Lesson 6 : **DES Data Encryption Standard Part 1 in Network Security in Hindi**

Lesson 7 : **DES Data Encryption Standard part 2 in Hindi**

Lesson 8 : **PGP Pretty Good Privacy in Network Security in Hindi**

Lesson 9 : **Lec 7 3 Router with Example in Hindi**

Lesson 10 : **DHCP in Hindi Advantage how it works**

Lesson 11 : **MD5 Message Digest 5 Algorithm in Network Security Detailed Explanation in Hindi**

Lesson 12 : **Packet Sniffing Detailed Explanation in Computer Network in Hindi**

Lesson 13 : **Digital Signature in Network Security in Hindi**
