About the course Uber clone app using flutter development

Uber clone app using flutter course, in this course you'll dive deep into Flutter development by creating an Uber clone app from scratch. Through practical exercises and guided tutorials, you'll grasp the essentials of Flutter's UI toolkit while replicating key features of the Uber app. From user authentication to real-time location tracking and ride booking functionality, you'll learn to harness Flutter's capabilities to build a polished and functional ride-hailing application. By the end of the course, you'll have the expertise to develop your own Flutter-powered apps and embark on your journey as a proficient mobile app developer.

Mobile Development Category's Courses

Course Lesson(5)
