Mindluster Platform

About the course Basic Structure of a Java Program

Basic Structure of a Java course in hindi, in this course we will learn about the basic structure of a Java program, providing a solid foundation for understanding and writing Java code. Java, a versatile and widely-used programming language, is essential for developing a variety of applications, from mobile apps to large-scale enterprise systems. We'll start by exploring the essential components of a Java program, including classes, the main method, and packages. You'll learn how to set up the Java development environment, write your first Java program, and understand the syntax that forms the backbone of Java programming. We will delve into variables, data types, and control flow statements like conditionals and loops, which are crucial for creating dynamic and functional programs. Additionally, we'll cover methods and functions, explaining how to organize and reuse code effectively. By the end of this course, you'll have a comprehensive understanding of Java's structure and be well-equipped to tackle more advanced programming concepts. This knowledge is fundamental for anyone aiming to excel in software development, making this course an essential starting point for your Java programming journey. Join us to master the basics and build a strong foundation in Java programming.

Programming Category's Courses

Course Lesson(114)

Lesson 1 : **Drawbacks of Procedure Oriented Programming Disadvantages of pop**

Lesson 2 : **Difference between Procedural oriented programming and object oriented programming POP VS OOP**

Lesson 3 : **History of Java Origins of Java Evolution of Java Editions Versions**

Lesson 4 : **Java Software How Java Works JDK JRE and JVM What is the difference between JDK JRE and JVM**

Lesson 5 : **Java Virtual Machine JVM**

Lesson 6 : **JAVA BUZZWORDS FEATURES JAVA PROGRAMMING**

Lesson 7 : **Basic Concepts Of Object Oriented Programming OOP In Java Programming**

Lesson 8 : **Basic Structure of a Java Program**

Lesson 9 : **MAIN METHOD EXPLANATION JAVA PROGRAMMING main method in java public static void main**

Lesson 10 : **System out println in Java Explanation How to use Java print method print method explanation**

Lesson 11 : **NAMING CONVENTION JAVA PROGRAMMING**

Lesson 12 : **DATATYPES JAVA PROGRAMMING**

Lesson 13 : **Literals in Java Programming**

Lesson 14 : **Variables in Java dynamic initialization of variables in java scope and lifetime of a variable**

Lesson 15 : **TYPES OF VARIABLES JAVA PROGRAMMING Instance Variables Static Variables Local Variables**

Lesson 16 :
Static Members in Java STATIC VARIABLES STATIC METHODS STATIC BLOCK JAVA PROGRAMMING

Lesson 17 : **Type Conversion and Type Casting in Java Implicit Explicit OOPS**

Lesson 18 : **Wrapper Classes in Java Programming Auto Boxing Unboxing OOPS**

Lesson 19 : **Garbage Collector in Java Programming OOPS Garbage Collection**

Lesson 20 : **One Dimensional Array In Java Array 1D**

Lesson 21 :
Multidimensional Arrays in Java Two Dimensional Array in Java rectangular array in java

Lesson 22 : **Jagged Array in Java Array of Array in Java Ragged Array in Java**

Lesson 23 :
Arrays in java One Dimensional Array Two Dimensional Array Multi Dimensional Jagged Array

Lesson 24 : **class and object in java with example**

Lesson 25 : **Differences between class and object in java**

Lesson 26 : **Method Overloading in Java**

Lesson 27 : **Constructors in Java Types of Constructors Use of Constructors**

Lesson 28 : **Constructor Overloading in Java**

Lesson 29 : **STRING CLASS STRING CLASS METHODS JAVA PROGRAMMING**

Lesson 30 : **String Comparison In Java equals Operator compareTo**

Lesson 31 : **StringBuffer CLASS AND StringBuffer Class METHODS JAVA PROGRAMMING**

Lesson 32 :
Differences between String and StringBuffer Class in Java Mutable vs Immutable Objects in Java

Lesson 33 :
INHERITANCE IN JAVA Types of inheritance Single Multiple Multilevel Hierarchical Hybrid

Lesson 34 : **Single Inheritance in Java**

Lesson 35 : **Multilevel Inheritance in Java**

Lesson 36 : **Hierarchical Inheritance in Java**

Lesson 37 : **Hybrid Inheritance in Java**

Lesson 38 : **METHOD OVERRIDING JAVA PROGRAMMING**

Lesson 39 : **super keyword in java**

Lesson 40 : **Abstract Class and Abstract Method in Java**

Lesson 41 :
DIFFERENCES BETWEEN METHOD OVERLOADING AND OVERRIDING JAVA PROGRAMMING

Lesson 42 :
Difference between Abstract Class and Concrete Class in Java Abstract class versus class in java

Lesson 43 : **Dynamic Method Dispatch In Java**

Lesson 44 : **final keyword in java with examples final variable final method final class**

Lesson 45 : **Difference between Abstract Class and Interface in Java**

Lesson 46 : **Interface In Java Programming**

Lesson 47 : **USER DEFINED PACKAGES in java Packages in java**

Lesson 48 : **Command Line Arguments in Java Programming**

Lesson 49 : **Differences Between Multi Tasking And Multi Threading In Java**

Lesson 50 : **Thread Life Cycle In Java States Of a Thread In Java**

Lesson 51 :
Creating Threads in Java By extending Thread Class By implementing Runnable Interface

Lesson 52 :
Creating Multiple Threads in java using Thread class java program to create multiple threads

Lesson 53 : **creating multiple threads in java using runnable interface**

Lesson 54 : **Thread Class Methods In Java Part1 getId getName setName getPriority setPriority**

Lesson 55 : **Thread Class Methods In Java Part2 start run isAlive**

Lesson 56 : **sleep method Thread Class Methods in Java Part3**

Lesson 57 : **join join method Thread Class Methods in Java Part4**

Lesson 58 : **yield yield method in java Thread class methods in java part5**

Lesson 59 : **stop stop method in java Thread class methods in java part6**

Lesson 60 : **Inter thread communication in Java wait and notify Thread Class methods In java Part7**

Lesson 61 : **Thread Synchronization In Java**

Lesson 62 : **Exception Handling In Java**

Lesson 63 :
Built in Exceptions in Java with examples Types of Exceptions Checked Exceptions Unchecked

Lesson 64 : **throw keyword in java**

Lesson 65 : **throws keyword in java programming**

Lesson 66 : **finally block in java**

Lesson 67 : **Differences between throw and throws in Java Programming**

Lesson 68 : **nested try block in java**

Lesson 69 : **User Defined Exceptions or Custom Exceptions In Java Programming**

Lesson 70 : **Chained Exceptions in Java**

Lesson 71 : **Introduction to Applets in java What is Applet In Java**

Lesson 72 : **Applet Life Cycle Methods in java Applet Structure Applet Skeleton Applet Architecture**

Lesson 73 : **Differences between Applet and Application in Java**

Lesson 74 :
Passing Parameters to an Applet Passing inputs to an Applet Parameter passing to Applet java

Lesson 75 :
Applet program to demonstrate order of execution of life cycle methods Java Programming

Lesson 76 : **Simple Applet Program to display HelloWorld message Java Programming**

Lesson 77 : **Graphics Class Methods in awt Applet Programming Java Programming**

Lesson 78 : **Applet program to demonstrate Life Cycle Methods Java Programming**

Lesson 79 : **Label AWT Controls Java AWT**

Lesson 80 : **Button AWT Controls Java AWT**

Lesson 81 : **Checkbox Control AWT Controls Java AWT**

Lesson 82 : **CheckboxGroup Control AWT Controls Java AWT**

Lesson 83 : **TextField Control AWT Controls Java AWT**

Lesson 84 : **TextArea Control AWT Controls Java AWT**

Lesson 85 : **Choice Control AWT Controls Java AWT**

Lesson 86 : **List Control AWT Controls Java AWT**

Lesson 87 :
FlowLayout in Java Layout Managers Java AWT Applets Swings Java Programming Frames

Lesson 88 :
BorderLayout in Java Layout Managers Java AWT Applets Swings Java Programming Frames

Lesson 89 :
GridLayout in Java Layout Managers Java AWT Applets Swings Java Programming Frames

Lesson 90 :
CardLayout in Java Layout Managers Java AWT Applets Swings Java Programming Frames

Lesson 91 :
Event Handling In Java Delegation Event Model Classes Listener Interfaces Sources of events

Lesson 92 : **Handling Key Events In Java Programming Event Handling Key Board Events**

Lesson 93 : **Handling Mouse Events In Java Programming Event Handling**

Lesson 94 : **Adapter Classes In Java Programming**

Lesson 95 : **Inner Classes In Java Programming**

Lesson 96 : **Anonymous Inner Classes In Java Programming**

Lesson 97 :
Key Features Of Swing Limitations of AWT Differences between AWT and swing Versus What is

Lesson 98 : **JLabel Class Swing Components Swing Controls Java Programming**

Lesson 99 : **JTextField Class Swing Components Swing Controls Java Programming**

Lesson 100 : **JTextArea Class Swing Components Swing Controls Java Programming**

Lesson 101 : **JButton Class Swing Components Swing Controls Java Programming**

Lesson 102 : **JPasswordField Class Swing Components Swing Controls Java Programming**

Lesson 103 : **JCheckBox Class Swing Components Swing Controls Java Programming**

Lesson 104 : **JRadioButton Class Swing Components Swing Controls Java Programming**

Lesson 105 : **JComboBox Class Swing Components Swing Controls Java Programming**

Lesson 106 : **JList Class Swing Components Swing Controls Java Programming**

Lesson 107 : **JTable Class Swing Components Swing Controls Java Programming**

Lesson 108 : **JScrollBar Class Swing Components Swing Controls Java Programming**

Lesson 109 : **JMenuBar Class Swing Components Swing Controls Java Programming**

Lesson 110 : **JTree Class Swing Components Swing Controls Java Programming**

Lesson 111 : **JTabbedPane Class Swing Components Swing Controls Java Programming**

Lesson 112 : **Date Class of util package in Java Programming java util Date class methods program**

Lesson 113 : **StringTokenizer class in Java Programming util package Methods Program**

Lesson 114 :
Access Specifiers Access Modifiers In Java Programming public private protected default
