About the course Strategic cost management and pricing

Strategic cost management course, in this course we will learn about the Strategic Cost Management, focusing on how organizations can use cost information to enhance their competitive advantage. We will delve into cost management techniques that align with the companyâ€™s strategic objectives. Key topics include cost leadership, differentiation strategies, and the integration of cost management with business strategy. Participants will explore various tools and methods such as activity-based costing, value chain analysis, and target costing. The course also covers cost driver analysis and strategic positioning to help businesses optimize their cost structures. Emphasis will be placed on real-world applications and case studies to illustrate how strategic cost management can lead to better decision-making and improved profitability. By the end of this course, students will be equipped with the skills to implement strategic cost management practices that support long-term financial goals and competitive positioning, enabling them to contribute effectively to their organization's success.

Accounting Category's Courses

Course Lesson(13)

Lesson 1 : **Various Classifications of Costs**

Lesson 2 : **Cost Volume Profit CVP Analysis Break even Point Part 1**

Lesson 3 : **Cost Volume Profit CVP Analysis Break even Point Part 2**

Lesson 4 : **CVP Analysis Multiple Product Break even Calculations Part 1**

Lesson 5 : **CVP Analysis Multiple Product Break even Calculations Part 2**

Lesson 6 : **CVP Analysis Multiple Product Break even Calculations Part 3**

Lesson 7 : **Absorption Costing and Variable Costing**

Lesson 8 : **Standard Costing and Variance Analysis Materials Part 1**

Lesson 9 : **Standard Costing and Variance Analysis Materials Part 2**

Lesson 10 : **Standard Costing and Variance Analysis Variable Factory Overhead**

Lesson 11 : **Capital Budgeting Part 1**

Lesson 12 : **Absorption and Variable Costing Net Income Reconciliation**

Lesson 13 :
Total Factory Overhead Variance Analysis One Way Two Way Three Way and Four Way Analysis
