About the course Excel data validation for beginners

Excel data validation course, in this course we will learn about Excel data validation. This course will guide you through the process of using data validation to control the type of data or the values that users enter into a cell. You will learn how to set up data validation rules to ensure data integrity and accuracy, such as restricting entries to specific numbers, dates, or text lengths, and creating custom validation rules using formulas. We'll also cover how to create drop-down lists for easy data entry and how to use dynamic ranges to keep your lists up-to-date automatically. Additionally, you'll explore advanced techniques for applying data validation across multiple cells and sheets, handling invalid data entries, and using input messages and error alerts to guide users. Practical examples and hands-on exercises will help you master these skills and apply them to real-world scenarios. By the end of the course, you will be proficient in implementing data validation in Excel, enabling you to enhance data quality and streamline data entry processes. This course is ideal for anyone looking to improve their Excel skills and ensure high-quality data management. Join us to unlock the full potential of Excel data validation.

Computer Science Category's Courses

Course Lesson(10)

Lesson 1 : **Data Validation Drop Down List with Excel Table Dynamic Range**

Lesson 2 : **Cascading Drop Down Lists in Excel Mutli level Dependent Menus**

Lesson 3 : **Excel Drop Down List Including Cell Colour Change Colour Fill**

Lesson 4 : **Excel VBA Code for Data Validation Including Drop Down List**

Lesson 5 : **How to Create a Searchable Drop down List in Excel**

Lesson 6 : **Create a Searchable Drop down List Using Excel s Filter Function**

Lesson 7 : **Excel Allow Only Numeric Values in a Cell**

Lesson 8 : **Excel Only Allow Text In a Range of Cells**

Lesson 9 : **Excel Prevent Duplicate Entries in a Column**

Lesson 10 :
Auto Populate Other Cells When Selecting Values in Excel Drop Down List VLOOKUP to Auto Populate
