About the course Google Jamboard basics for educators

Google Jamboard basics course, in this course we will learn about the Google Jamboard basics. This course is designed to introduce participants to the fundamental features and functionalities of Google Jamboard, an interactive digital whiteboard tool. Participants will learn how to set up and navigate Jamboard, use various tools to create and edit interactive boards, and add text, images, and shapes. The course covers how to utilize drawing and annotation tools effectively, as well as sharing boards with others for real-time collaborative work. Additionally, learners will explore the integration of Jamboard with other Google services such as Google Drive and Google Meet, enhancing the overall collaborative experience. By the end of this course, participants will be equipped with the knowledge to use Google Jamboard for brainstorming sessions, interactive lessons, and team meetings. Whether you're an educator, business professional, or creative individual, this course will help you harness the power of Google Jamboard to boost collaboration, creativity, and productivity in your work or learning environment. Participants will also learn tips and best practices for maximizing the potential of Google Jamboard, ensuring they can effectively incorporate this tool into their daily workflow.
