About the course Building a GPT excel tutor for beginners

Building a GPT excel tutor course, in this course you will learn how to build a GPT-powered Excel tutor, an intelligent assistant designed to help users master Excel through personalized guidance and support. This course is ideal for developers, educators, and Excel enthusiasts who want to leverage AI to create an interactive learning experience. You will start with an introduction to GPT (Generative Pre-trained Transformer), exploring its capabilities and applications. The course will guide you through setting up the development environment, selecting the appropriate tools and platforms, and integrating GPT with Excel. You will learn how to train your GPT model on Excel-specific data to ensure it understands and responds accurately to user queries about Excel functions, formulas, and best practices. Advanced topics include creating natural language processing (NLP) models, optimizing the tutorâ€™s responses, and implementing features such as contextual help, interactive tutorials, and troubleshooting tips. You will also explore ways to enhance user experience by making the tutor more intuitive and responsive.

Artificial Intelligence Category's Courses

Course Lesson(13)

Lesson 1 : **Don t Miss Out on Microsoft 365 Copilot Features**

Lesson 2 : **Avoid Falling Behind Master Google Gemini Now**

Lesson 3 : **Ditch Google Embrace Perplexity AI for Search**

Lesson 4 : **How to Create AI Generated Images from Text with MidJourney Beginners Tutorial**

Lesson 5 : **How to use Bing Chat AI Your Free Personal Assistant**

Lesson 6 : **How to use Bing s AI Image Creator Create Images from Words**

Lesson 7 : **How to use Adobe Firefly s Generative AI Magic**

Lesson 8 : **ChatGPT 101 for Teachers A Beginner s Tutorial**

Lesson 9 : **I Built a GPT Excel Tutor Now I Want to Show You How to Make Your Own**

Lesson 10 : **Explore AI Magic 5 AI Tools in Windows 11 Revealed**

Lesson 11 : **How to use Copilot on your iPhone 5 Tips for Smart AI Assistance**

Lesson 12 : **Make Microsoft Excel WAY Smarter**

Lesson 13 : **Perplexity AI A Game Changer for Teacher Research**
