# About the course OneNote desktop app for beginners

OneNote desktop app course, in this course we will learn about the OneNote Desktop App, a powerful tool for digital note-taking and organization. You'll discover how to create and manage notebooks, sections, and pages to keep your notes well-structured and easily accessible. Weâ€™ll explore how to incorporate various types of content, such as text, images, and audio recordings, into your notes, and how to use tags, search functions, and templates to streamline your workflow. The course will also cover collaborative features, allowing you to share notebooks with others for group projects or team meetings. By the end of this course, you will be proficient in using OneNote to capture and organize your ideas, whether for personal, educational, or professional purposes, and will have the skills to make the most out of this versatile application.
