Mindluster Platform

About the course ReactJS Redux Basics

When using Redux with React, states will no longer need to be lifted up. This makes it easier for you to trace which action causes any change. As you can see in the example above, the component does not need to provide any state or method for its children components to share data among themselves .

Programming Category's Courses

Course Lesson(12)

Lesson 1 : **ReactJS Redux Tutorial 1 Introduction**

Lesson 2 : **ReactJS Redux Tutorial 2 What is Redux Why use it**

Lesson 3 : **ReactJS Redux Tutorial 3 Using Redux**

Lesson 4 : **ReactJS Redux Tutorial 4 Working with State and Immutability**

Lesson 5 : **ReactJS Redux Tutorial 5 Multiple Reducers**

Lesson 6 : **ReactJS Redux Tutorial 6 Redux Middleware**

Lesson 7 : **ReactJS Redux Tutorial 7 Connect ReactJS and Redux**

Lesson 8 : **ReactJS Redux Tutorial 8 Containers Components Smart Dumb Components**

Lesson 9 : **ReactJS Redux Tutorial 9 A better Project Structure**

Lesson 10 : **ReactJS Redux Tutorial 10 Async Actions**

Lesson 11 : **ReactJS Redux Tutorial 11 Wrap Up Further Resources**

Lesson 12 : **React Context vs Redux Who wins**
