Mindluster Platform

About the course Cloud logging fundamentals for beginners

Cloud logging fundamentals course, in this course we will learn about the Cloud Logging Fundamentals, providing a comprehensive introduction to the essential concepts and practices of logging in cloud environments. Cloud logging is crucial for monitoring, troubleshooting, and securing cloud-based applications and services. You'll explore how to collect, analyze, and manage logs generated by cloud resources, gaining insights into system performance, user activities, and potential security threats. The course covers key topics such as setting up logging frameworks, understanding log formats, and using cloud-native logging tools and services. You will also learn best practices for log retention, aggregation, and real-time monitoring, enabling you to effectively manage and analyze logs in a cloud environment.

Computer Science Category's Courses

Course Lesson(16)

Lesson 1 : **Store Process and Manage Data on Google Cloud Command Line Challenge Lab ARC102**

Lesson 2 : **Migrating On premises MySQL Using a Continuous Database Migration Service Job**

Lesson 3 : **Build a Serverless App with Cloud Run that Creates PDF Files GSP644**

Lesson 4 : **Bigtable Qwik Start Command Line GSP099**

Lesson 5 : **Build a Chat Application using the PaLM 2 API on Cloud Run GSP1201**

Lesson 6 : **Deploy a Streamlit App Integrated with Gemini Pro on Cloud Run GSP1229**

Lesson 7 : **VPC Flow Logs Analyzing Network Traffic GSP212**

Lesson 8 : **VM Migration Planning GSP616**

Lesson 9 : **Ingesting FHIR Data with the Healthcare API GSP457**

Lesson 10 : **Deploy Go Apps on Google Cloud Serverless Platforms GSP702**

Lesson 11 :
Securing Compute Engine Applications and Resources using BeyondCorp Enterprise BCE GSP1033

Lesson 12 : **Getting Started with Neo4J Enterprise on Google Cloud GSP1104**

Lesson 13 : **Fundamentals of Cloud Logging GSP610**

Lesson 14 : **Provision Services with Google Cloud Marketplace GSP003**

Lesson 15 : **Prepare Data for ML APIs on Google Cloud Challenge Lab GSP323**

Lesson 16 : **The Basics of Google Cloud Compute Challenge Lab ARC120**
