About the course Creating reports in looker studio

Creating reports in looker studio course, in this course we will learn about Creating Reports in Looker Studio, focusing on the essential techniques for designing and building interactive, visually compelling reports using Looker Studio. Looker Studio is a powerful data analytics and visualization platform that allows users to transform raw data into meaningful insights through custom reports and dashboards. The course covers key topics such as connecting to various data sources, exploring and analyzing data, and utilizing Looker Studio's robust visualization tools to create charts, graphs, and tables that effectively communicate your findings. You will also learn how to customize reports with filters, themes, and calculated fields, making the reports both informative and tailored to your audience's needs. Additionally, the course will guide you through best practices for sharing and collaborating on reports, ensuring that your data-driven insights are easily accessible to stakeholders across your organization. Whether you are looking to create performance dashboards, marketing reports, or financial summaries, this course will equip you with the skills to leverage Looker Studio for all your reporting needs.

Computer Science Category's Courses

Course Lesson(20)

Lesson 1 : **Explore and Create Reports with Looker Studio GSP409**

Lesson 2 : **Looker Studio Qwik Start GSP136**

Lesson 3 : **Visualizing Billing Data with Looker Studio GSP622**

Lesson 4 : **Looker Functions and Operators GSP857**

Lesson 5 : **Looker Data Explorer Qwik Start GSP718**

Lesson 6 : **Filtering and Sorting Data in Looker GSP855**

Lesson 7 : **Using Custom Fields in Looker Explores GSP983**

Lesson 8 : **Merging Results from Different Explores in Looker GSP856**

Lesson 9 : **Enhancing User Interactivity in Looker with Liquid GSP934**

Lesson 10 : **Looker Developer Qwik Start GSP891**

Lesson 11 : **Creating a Looker Modeled Query and Working with Quick Start GSP984**

Lesson 12 : **Getting Started with Liquid to Customize the Looker User Experience GSP933**

Lesson 13 : **Sending and Scheduling Looks in Looker GSP1161**

Lesson 14 : **Troubleshooting Data Models in Looker GSP1019**

Lesson 15 : **Sending and Scheduling Dashboards in Looker GSP1162**

Lesson 16 : **Creating Tile based Dashboard Alerts in Looker GSP1160**

Lesson 17 : **Creating Derived Tables Using LookML GSP858**

Lesson 18 : **Create a report in Looker Studio**

Lesson 19 : **Model dimensions and measures using LookML**

Lesson 20 : **Build a dashboard using the Looker Enterprise UI**
