Mindluster Platform

About the course The Complete C Language Course

Course Presenter : TechAcdnt

The Complete C Language Course: We will learn C programming from basics to advanced topics, including syntax, data structures, pointers, and memory management. This course is perfect for mastering C and building a strong programming foundation. TechAcdnt

Programming Category's Courses

Course Lesson(64)

Lesson 1 : **1 Mastering Comment Lines in C Language A Comprehensive Guide**

Lesson 2 : **2 Variables in C A Fundamental Guide to Understand and Utilize Them**

Lesson 3 : **3 Installation**

Lesson 4 : **4 Conditional Statements in C Mastering If and If Else Statement**

Lesson 5 : **5 Nested If Statements in C Mastering Complex Decision Making**

Lesson 6 : **6 Else If Ladder in C Simplifying Multiple Conditional Branching**

Lesson 7 : **7 Mastering the While Loop in C Enhance Program Control and Repetition**

Lesson 8 : **8 While loop example**

Lesson 9 : **9 Sum of Digits in a Given Number A Step by Step Guide in C Programmingr**

Lesson 10 : **10 Exploring the For Loop in C Mastering Iteration and Control Flow**

Lesson 11 : **11 Finding the Factorial of a Given Number A Step by Step Guide in C Programming**

Lesson 12 : **12 Replacing For Loops with While Loops in C Simplifying Iteration and Control Flow**

Lesson 13 : **13 Mastering the Do While Loop in C Achieving Versatile Iteration and User Interaction**

Lesson 14 : **14 Dowhile loop Example**

Lesson 15 : **15 Understanding Functions and Their Components in C A Comprehensive Guide**

Lesson 16 : **16 Categories of Functions in C Exploring Different Types and Their Applications**

Lesson 17 : **17 Calculating Factorial Using Functions in C Efficient and Modular Approach**

Lesson 18 :
18 Finding the Greatest Common Divisor GCD Using Functions in C A Step by Step Guide

Lesson 19 : **19 sum digits using function**

Lesson 20 : **20 Understanding Function Parameters in C Exploring Pass by Value and Mechanisms**

Lesson 21 : **21 Example program on Parameter Passing Mechanisms**

Lesson 22 : 22 Understanding Storage Classes in C Exploring Different Types and Their Usage

Lesson 23 : 23 Auto vs Static Storage Class in C Understanding Differences and Best Practices

Lesson 24 : 24 Exploring Recursion in C Unlocking the Power of Recursive Function Calls

Lesson 25 : 25 Calculating Factorial Using Recursion in C A Step by Step Guide

Lesson 26 : 26 Finding the Sum of n Numbers Using Recursion in C A Step by Step Guide

Lesson 27 :
27 Generating Fibonacci Series Using Recursion in C Unveiling the Beauty of Recursive Patterns

Lesson 28 :
28 Compile Time Initialization of 1D Arrays in C Efficient and Convenient Array Initialization

Lesson 29 : 29 Run Time Initialization Finding the Sum of Elements in an Array in C

Lesson 30 : 30 Linear Search in Arrays Finding Elements Efficiently Using C Programming

Lesson 31 :
31 Finding the Frequency of a Given Element in a Sorted Array Efficient Search Techniques in C

Lesson 32 : 32 Sorting an Array Exploring Efficient Sorting Algorithms in C

Lesson 33 :
33 Initializing and Displaying 2D Arrays in C Mastering Multi dimensional Data Structures

Lesson 34 : 34 Working with 2D Arrays and Matrices Essential Programs and Operations in C

Lesson 35 : 35 Multi Dimensional Arrays in C Mastering Complex Data Structures

Lesson 36 : 36 String Initialization Accessing and Displaying in C Mastering String Handling

Lesson 37 : 37 Copying Strings and Finding Length in C Essential String Manipulation Techniques

Lesson 38 : 38 Finding the Reverse of a String in C Essential String Manipulation Technique

Lesson 39 : 39 String Concatenation in C Joining Strings for Enhanced Textual Manipulation

Lesson 40 : 40 Understanding Pointers in C Mastering Memory Manipulation and Efficiency

Lesson 41 : 41 Double Pointers in C Mastering Indirection and Advanced Memory Management

Lesson 42 : 42 Example program to illustrate pointer Double pointer

Lesson 43 : 43 Pointers as Parameters to Functions in C Harnessing the Power of Indirection

Lesson 44 : 44 Pointer to a Function in C Harnessing the Power of Function Pointers

Lesson 45 : 45 Pointer Arithmetic in C Mastering Efficient Memory Manipulation

Lesson 46 : 46 Accessing Strings Using Pointers in C Efficient String Manipulation Techniques

Lesson 47 :
47 Finding the Length of a String Using Pointers in C Efficient String Length Determination

Lesson 48 : 48 String Concatenation Using Pointers in C Efficient and Dynamic String Manipulation

Lesson 49 : String Comparison Using Pointers in C Efficient and Accurate String Analysis

Lesson 50 : 50 Pointers and 1D Arrays in C Unleash the Power of Dynamic Memory Management

Lesson 51 :
51 Pointers and 2D Arrays in C Unleashing the Power of Multidimensional Data Structures

Lesson 52 :
52 Dynamic Memory Allocation Functions in C Harnessing the Power of Memory Management

Lesson 53 : **53 Malloc in C Dynamic Memory Allocation Made Easy**

Lesson 54 : **54 Calloc in C Efficient Memory Allocation and Initialization**

Lesson 55 : **55 Realloc in C Dynamic Memory Reallocation for Flexibility and Efficiency**

Lesson 56 : **56 Structures in C Syntax Initialization and Practical Examples**

Lesson 57 : **57 Array of Structures in C Efficient Management of Multiple Data Entities**

Lesson 58 : **58 Array within Structures in C Managing Complex Data Structures**

Lesson 59 : **59 Structure within Another Structure in C Creating Hierarchical Data Structures**

Lesson 60 :
60 Methods of Passing Structures to a Function in C Efficient Data Handling Techniques

Lesson 61 :
61 Structures and Pointers in C Efficient Data Manipulation and Dynamic Memory Allocation

Lesson 62 : **62 Unions in C Efficient Memory Sharing for Multiple Data Types**

Lesson 63 : **63 Example Unions**

Lesson 64 : **64 Enum and Typedef in C Enhancing Code Clarity and Readability**
