

## About the course **CapCut text editing basics**

CapCut text editing course, in this course we will learn about the essential skills of CapCut text editing, focusing on how to enhance your videos with customized and creative text elements. You will discover how to add text overlays to your videos, choose from a variety of fonts, and adjust text sizes, colors, and styles to suit your content. We will guide you through the process of positioning text on the screen, timing it with your video, and applying various effects such as shadows, outlines, and animations to make your text stand out. Whether you're adding titles, subtitles, or creative captions, this course will provide you with practical techniques to ensure your text complements your video's narrative. Additionally, we will explore advanced features like text animation and motion tracking, allowing your text to interact with the visual elements of your video. By the end of this course, you'll be confident in using CapCut's text editing tools to create polished, engaging, and professional-looking videos.
